PROFESSIONAL POWER TOOL SOLUTIONS

METABO DUST EXTRACTION SYSTEMS & SOLUTIONS

ASR 35 H ACP
H CLASS FULLY AUTOMATIC VACUUM CLEANER
THE NEW MINIMUM REQUIREMENT FOR SILICA DUST

THE HEART OF THE DUST EXTRACTION SYSTEM
4380 L/MIN, NO SUCTION LOSS WHEN IN SELF CLEANING MODE

99.995% EFFICIENT

- Hose Diameter Selector: Select the appropriate hose diameter for optimum suction power.
- Magnetic cleaning process: Vacuum maintains suction while cleaning
- Durable wheels: Large rear wheels. Front wheels swivel and can lock for ease of use
- Mode selection dial
- Tool outlet: The vacuum starts and stops automatically when the tool is turned on/off
- Flip door release
- WET / DRY Capable
- Hose locking system: The vacuum can be pulled across the job site

35 L CAPACITY

4380 l/min AIRFLOW

M class suitable for wood dust (eg: MDF)

ASR 35 H ACP
H class Auto Clean Vacuum
602059190
$1699

H Class (high risk) dust includes dust containing carcinogenic or pathogenic particles such as silica as well as mould spores, mineral fibres, bitumen and artificial mineral fibres such as glass wool.

All prices are Recommended Retail Prices, inclusive of GST. Prices are valid until 30th September 2021.

CORDLESS CONTROL

A WORLD FIRST!

WORKS WITH ALL BRANDS OF POWERTOOLS AND VACUUM CLEANERS

Wireless controller for automatically starting vacuum cleaner/dust extractor of any brand connected to powertools of any brand.

With Metabo's new Cordless Control set you no longer need to manually switch on your Vacuum cleaner/dust extractor when using it with a power tool.

Just attach the CordlessControl transmitter to the end of your vacuum hose, or to your tool, and it will detect the tool's vibrations and power on the vacuum. Switch off the tool and the vacuum will stop.

Scan to watch Cordless Control in action

HOW IT WORKS. EASY: SET UP IN MATTER OF SECONDS

1. Plug in the mains-powered vacuum cleaner with the receiver power socket

2. Fix the transmitter with multi band on the hose behind the sleeve or directly on the machine.

3. Turn mains-powered vacuum cleaner to "manual" or switch on. Start cordless tool.

The vacuum cleaner is switched on/off automatically by the detection of vibrations.

Alternatively

Alternatively the vacuum cleaner can be started via the remote button on the transmitter
e.g. when cleaning.

Easy to retrofit

Compatible with all brands of vacuum cleaners/dust Extractors

Fits all standard suction hose diameters

Compatible with all brands of power tools

NEW

Start/Stop Set CordlessControl

Part no. 630235000
consisting of receiver socket, transmitter, 3x multi tape, battery CR 2032

$199

All prices are Recommended Retail Prices, inclusive of GST. Prices are valid until 30th September 2021.

Cordless. The cordless vacuum cleaner with CordlessControl.

18 V / 36 V

CORDLESS CONTROL

The cordless vacuum cleaner **starts/stops automatically** when switching on/off the cordless tool connected to the hose.

more than 100 Minutes runtime[1]

$1579

2x18 V / 1x36 volt cordless wet/dry vacuum cleaner ASR 36-18 BL 25 M SC with electromagnetic shaking

Powerful like a mains-powered industrial vacuum cleaner

thanks to powerful, energy-efficient Brushless motor and LiHD high-performance battery packs either with 2x 18 V or 1x 36 V

Longer battery pack runtimes

thanks to variable suction power – adjustable depending on the application

Semi-automatic filter cleaning

during breaks or manually when needed (SelfClean)

Many details for safety and comfort

folding hose hook, rubberised storage surfaces and castors with brakes for safe stand

We recommend the LiHD battery pack 18 V / 10.0 Ah. More information pages 2/3.

[1]per battery pack 2x LiHD 10.0 Ah

without battery pack, without charger
Order no. 602046850

Vacuum	240 bar
Max. air output	4,000 l/s
Container volume	25 l
Weight (without battery pack)	12 kg

M M

The protection of your health is important to us

With our M-vacuum cleaners the dusts extracted during sanding, sawing or routing end up directly in the vacuum cleaner instead of your lungs, thanks to a filter separation efficiency of up to 99.9%.

This also keeps your work environment clean.

M-vacuum cleaners are suitable for:

- Dust with AGW values ≥ 0.1 mg/m³
- Dust of medium hazard e.g. wood dusts (beech / oak)
- Mineral dust class M e.g. quartz dust

Ideal also for wet vacuuming thanks to water sensor and acoustic warning device.

All prices are Recommended Retail Prices, inclusive of GST. Prices are valid until 30th September 2021.

125 mm Variable Speed Concrete Renovation Grinder

RSEV 19-125 RT

$1239

Grinding Extraction Hood

GED 125

- Suitable for angle grinder with disc-Ø 125 mm
- Quick, tool-free installation
- Integrated sliding segment for quick, tool-free access
- Anti-static plastic prevents electric charges and dust accumulations ensuring constantly high suction power
- Extraction hood with flexible brush rim and optimised extraction channel

$135

MARATHON MOTOR | MVT | SOFT-START | ELECTRONIC SAFETY CLUTCH | RESTART PROTECTION

230 mm Diamond Cutting System

TE 24-230 MVT CED

- Cuts up to 60 mm in mineral materials
- Open design of the dust extraction shroud
- Efficient dust extraction
- Metabo Marathon-motor, Soft Start
- Pushing cut & Pulling cut possible
- Metal base plate with rollers
- Metabo VibraTech (MVT)
- Tool-free setting of the cutting depth

$679

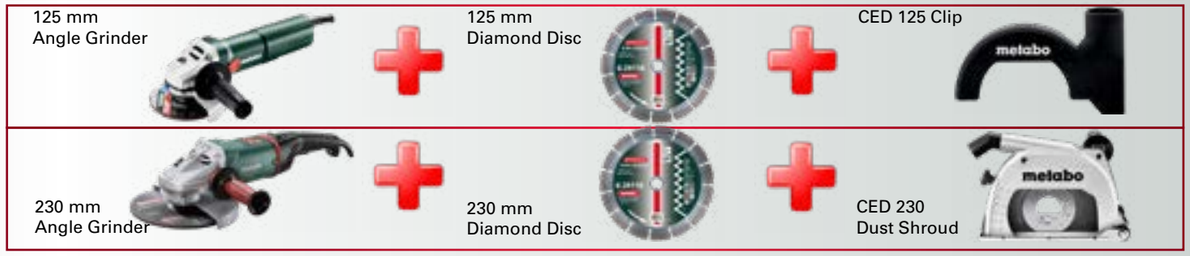
MARATHON MOTOR | MVT | S-AUTOMATIC MECHANICAL SAFETY CLUTCH | RESTART PROTECTION

125 mm Diamond Cutting System

T 13-125 CED

- Compact
- Efficient dust extraction
- Pushing cut & Plunge function
- Metal base plate with Rollers
- S-automatic safety clutch
- Restart Protection
- Auto-stop Carbon Brushes

$499



Brushless AC SDS-max Rotary/Chipping Hammers

Maximum drilling progress (KHEV) and high breaking performance thanks to maintenance-free, brushless motor and high-performance hammer action.

Metabo VibraTech (MVT) with double dampening: Decoupled handle and impact-absorbing counter-oscillating weight actively reduce vibrations for healthy working also in continuous work.

BRUSHLESS

Metabo S-Automatic safety clutch (KHEVs only): mechanical decoupling of the drive for safe working should the drill become jammed.

Easily accessible locking switch for chiselling in continuous mode.

Ergonomically shaped, slim grip area, with large speed control trigger for comfortable working.

Electronic soft start for precise spot-drilling / smooth start-up

Service display indicating overload, restart protection and power supply

Optional reduction of speed and impact energy for working in softer materials

Long service life thanks to brushless technology and robust aluminium die-cast housings of gearbox and motor.

Low-dust chiselling and drilling with external dust extraction ESA max.

Vario-Tacho-Constamatic (VTC): Full wave Electronics for work with materials requiring customized speeds, which remain constant under load.

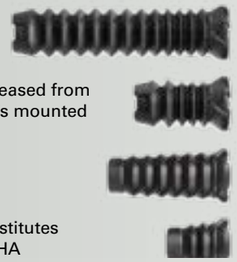
DUST EXTRACTION SET ESA MAX

Versatile use
suitable for hammer drilling and chiseling



Easy tool change
Chisel/ drill can be easily released from chuck while dust extraction is mounted on hammer

Efficient dust extraction
to be certified by national institutes such as TNO, BG BAU & OSHA

Full compatibility
1 system compatible with all new SDS-max hammers (launched 2018/19)* as well as all Metabo M class and H class vacuum cleaners

Tool-Free mounting
and intuitive connection of different set parts
