- Extremely robust, unbreakable boxes with a wide carrying handle
- A very carefully thought out box system. Used correctly you can always ensure that you have the correct accessory with the right tool. Special inserts for storing accessories, small parts and machines - boxes can be stacked and connected, carried or wheeled with your vacuum cleaner. A very well structured system which is neat and professional and can be stored practically anywhere in the workshop, the car or in the van.
- Numerous possible uses, e.g. with individually configurable foam inserts (accessories)
- The MetaLoc stays in shape – even at extreme temperatures (-40° to +90°C)
- No protruding parts, and thus no danger of getting snagged, e.g. on construction sites
- empty MetaLoc IV, without inserts
