

Charger ASC Ultra , 14.4-36 V, "AIR COOLED", AUS (627269000)

Order no. 627269000

EAN 4007430311054

Product may differ from Image

- For fast charging all Li-Power and LiHD slide-on battery packs (14.4 V - 36 V)
- Patented "AIR COOLED" charging technology: battery pack cooling during charging for significantly reduced charging times
- Processor-controlled charging management for gentle charging and maximum number of charging cycles
- 3-year warranty on all Metabo battery packs and chargers irrespective of the number of charging cycles
- Charge time approximately 30 minutes at 1.5 Ah; approximately 35 minutes at 4.0 Ah
- For connecting to 110/120 V, 50-60 Hz
- For connecting to 110/120 V, 50-60 Hz
- For connecting to 110/120 V, 50-60 Hz
- Monitored charging with microcontroller: the battery pack is charged with 6.5 ampere with constant monitoring of voltage flow, temperature flow and maximum temperature. The charger ends the charging process immediately after full charging. Thus, there is no overcharging and the life of the battery pack increases.
- Charger switches to compensation charge: to conserve the capacity, the battery packs are subsequently charged with maintenance charging current.
- "AIR COOLED" function: the patented principle is based on air-cooling the battery pack during the charging process. The battery packs are gently cooled down to the required charging temperature, and then during the charging process are constantly maintained at optimum temperature. With this principle, a higher tool life of the battery packs and up to 30% shorter total charging time can be achieved.

Technical data

Characteristics

Battery voltage	14.4 - 36 V
Mains voltage	220 - 240 V
Mains frequency	50 - 60 Hz
