

## **LD 30 (606162000) Laser distance meter**

### **Cardboard box**

Order no. 606162000  
EAN 4007430284709

Product may differ from Image

- Quick measurements and simple operation
- Certified according to ISO 16331-1: guaranteed measurement quality for accuracy and range
- Handy, robust device with impact-proof housing and soft grip material
- Energy-saving thanks to automatic shutdown
- LC display with large digits for good legibility

## Technical data

### Characteristics

|                                           |                                                            |
|-------------------------------------------|------------------------------------------------------------|
| Laser class                               | 2                                                          |
| Wavelength                                | 635 nm                                                     |
| Light output                              | < 1 mW                                                     |
| Measurement range                         | 0.2 - 30 m // 0.7 - 98 ft                                  |
| Measuring accuracy                        | ± 3 mm / ± 1/8 "                                           |
| Number of measurements per battery charge | 5000                                                       |
| Protection type IP                        | IP 54                                                      |
| Weight (with batteries)                   | 0.1 kg / 0.22 lbs                                          |
| Laser functions                           | Length / Area / Volume / Continuous measurement (tracking) |

### Scope of delivery

Belt pouch

2 Batteries AAA 1.5 V (LR03)
