

"AIR COOLED" Charger ASC 55, 12-36 V, USA/CND (627046000)

Order no. 627046000

EAN 4007430215857

Product may differ from Image

- Monitored charging with microcontroller
- Battery diagnosis
- Charge time approximately 30 minutes at 1.5 Ah
- "AIR COOLED" function
- For charging all Li-Power Compact, Li-Power Plus, Li-Power Extreme battery packs
- For charging all Li-Ion and LiHD slide-on battery packs (12 V - 36 V) with adapted battery pack charging current
- Charger switches to compensation charge: to conserve the capacity, the battery pack is charged for 1 second every 45 seconds with 2.5 ampere.
- "AIR COOLED" function: the patented principle is based on air-cooling the battery pack during the charging process. The battery packs are gently cooled down to the required charging temperature, and then during the charging process are constantly maintained at optimum temperature. With this principle, a higher tool life of the battery packs and up to 30% shorter total charging time can be achieved.
