METABO CORPORATION

PRESS RELEASE

Metabo: Introduces a New High Torque Corded Impact Wrench

Best in Class Power to Weight Ratio

September, 2016 – West Chester, PA – Metabo Corporation, a leading international manufacturer of professional grade hand-held power tools and accessories is pleased to introduce its new high torque SSW 650 1/2" corded impact wrench. Weighing in at only 6.6 lbs., the SSW 650 Impact Wrench produces an impressive 450 ft. lbs. of continuous torque, making it the best power to weight ratios in its class.

The SSW 650 is a well-balanced, high performance corded impact wrench with power comparable to Metabo's highly acclaimed SSW 18 LTX 600 cordless high torque impact wrench, but with higher RPM and a faster impact mechanism. The 1/2" spindle features a detention pin, making this tool particularly well suited for industrial applications. The SSW 650 features 3.1A / 650W of power with a max speed 2,100 RPM and an impact rating of 2,800 IPM.

ABOUT METABO: Engineered in Germany, Metabo's premium line of power tools are designed specifically for professional users to provide the highest level of safety, reliability and performance. Metabo manufactures both corded and cordless power tools, as well as a full line of abrasives and accessories for metalworking, concrete and many other industrial and construction applications. Metabo products include angle grinders, die grinders, drills, rotary hammers and dustless systems. The Metabo Ultra-M 18V LiHD battery technology offers users the mobility and power for the most demanding industrial applications.
