Representative picture

- Dust extraction adapter for extracting drilling dust at the hole entry point
- Safe and dust-free drilling in walls and ceilings
- The 2-chamber system and the foam rubber gasket keeps it attached to almost all (even uneven) surfaces, such as plaster, natural stone and woodchip wallpaper. Minimal drill dust residue on walls and wallpapers.
- The adapter is attached to the existing suction hose. The negative pressure of the vacuum cleaner keeps the adapter to the respective subsurface.
